WITTE REACHES FRANCH CAPITAL.

Paris, Sept. 19.—M. Witte, ac-
companied by his wife and daughter
and several members of the Russian
mission arrived here today from
Cherbourg. Following the expres-
sion of the Russian statesman there
was no informal reception and only
a few intimate friends gathered at
the station. A crowd of travellers
respectfully saluted M. Witte, who
bowed his acknowledgments. He
appeared to be much fatigued. M.
Witte will make a brief stay in
Paris, conferring with Ambassador
Nelidoff and probably also with
President Loubet and Premier Rou-
vier.

GOLD FOR IMPORT.

New York, Sept. 19.—The National
City Bank has engaged \$4,000,000
in gold for import from London.

A CONFERENCE WITH GOOD AIMS.

New York, Sept. 19.—The National
Purity conference will be held in
La Crosse, Wis., October 17 to 19.
Delegates will be present from all of
the United States and Canada, and
this conference is expected to be the
most important meeting of Purity
workers ever held in this country.
The purpose of the conference is
to consider and discuss the present
situation in the country as pertains
to the cause of purity rescue work.
Preventive methods, the traffic in
girls, law enforcement, divorce, race
suicide, state toleration of the social
evil, additional laws now needed,
will each and all receive a higher
standard of purity in family and in-
dividual life will be recommended.

TOOK A WILD RIDE

That Rushed Him to Almost
Instant Death From
a Long Fall.

DRIVER OF DELIVERY

Wagon Dropped Over a
Bridge, Distance of Over
One Hundred Feet.

New York, Sept. 19.—A man sup-
posed to be Wm A. Furisch, the driver
of a newspaper delivery wagon, was
thrown over the railing of Williams-
burg bridge, the new suspension
bridge over the East river, and dropped
150 feet to the stone side walk which
borders the New York shore of the
river beneath the bridge approach.
He died almost instantly. The man's
death came after a wild runaway ride
across the large part of the bridge.
An automobile frightened the horse.
Furisch made no attempt to jump, but
guided his horse past the other teams
on the bridge. His seat was on a level
with the outer guard rail of the
bridge and when the wagon came
against this rail, Furisch shot out of
his seat with a dive that carried him
completely beyond the bridge parapet
to the pavement below. The horses
continued to run to the great peril
of the other teams. The police closed
the iron gates, leading into the street
and at these gates the horse was stop-
ped.

PROSECUTION MAY FOLLOW.

New York, Sept. 19.—State At-
torney General Mayer arrived here today
intending to interview members of
the legislative insurance investigating
committee and its council. Regarding
the political campaign funds paid by
life insurance companies, it was re-
ported today that the attorney general
had been informed that the money so
paid out would be restored to the in-
surance companies, but that this would
not necessarily prevent him from taking
any action he might think proper.

ONLY A FEW SPARKS.

The fire department was called out
shortly before 10 o'clock this morning
on account of the discovery of a
few sparks that had landed from a
smoke stack in the roof of one of the
shed buildings at the rear of the Heff-
ner building on north Main street.
The fire was extinguished before any
damage was done.

A TEST OF STRENGTH.

Columbus, O., Sept. 19.—The St.
Louis Nationals, known as the Cardi-
nals, arrived here today for the game
with the Columbus team at City Park
this afternoon. Jack Taylor is to pitch
the game for the visitors as they want
to win the game.

RESUME WORK

Odd Fellows Getting Down
To Business.

Today's Session Began With
the Introduction of
Resolutions

FOR NEW LEGISLATION

Question of Affiliation With
the Manchester Unity
Is Important.

If Passed It Will Admit
Negroes to Membership
in the Order.

Philadelphia, Pa., Sept. 19.—The real
work of the annual communication of
the independent order of Odd Fellows
began today when the various reso-
lutions for new legislation and amend-
ments to the present laws were intro-
duced at this business session. Ex-
haustive discussion will take place on
the question of affiliation with Man-
chester Unity. There is considerable
objection to this proposition since it
would admit negroes to membership.
Prize drill work was resumed today.
The teams that competed were. Class
A. 500 prize—Canton No. 1, Washing-
ton, D. C., Canton No. 38, Syracuse;
City of Stratts Canton, Detroit, Can-
ton Lucas No. 3, Toledo, Canton Mc-
Kean No. 28, Terre Haute, Ind. Class
B prize—Rochester Canton No. 33.

A feature of the day was the parade
of the Odd Fellow on Broad street.
The line of march covered a distance
of more than three miles and the en-
tire length was thronged with sight
seers. It was estimated that 15,000 men
were in line. The arrangements for
the parade were gotten up by Lieut.
Gutter, and were complete in every
detail.

JURORS FOUND HIM NOT GUILTY.

Grand Rapids, Mich., Sept. 19.—After
being out 21 hours a jury in superior
court today, found former Alderman
James Moles, not guilty or accepting
a bribe of \$350 from former City At-
torney Lant K. Salisbury to aid the
noted Lake Michigan water deal. This
was Moles' second trial. He was
found guilty on his first trial, but
granted a new trial by the supreme
court, because some of the jurors in
the case served in previous water deal
trials.

DECIDED DROP IN TEMPERATURE.

Kansas City, Mo., Sept. 19.—The sun
shone in western Missouri and Kansas
today, and a decided drop in the
temperature caused a cessation of the
rain which had fallen steadily for
two weeks. Bank-full streams have
begun to recede rapidly and railroad
conditions have improved materially.
Repairs on washed out tracks are go-
ing forward rapidly today.

MANAGEMENT IS GRACIOUS.

Columbus, O., Sept. 19.—President
Bryce and the management of the
Columbus Club Co. have decided to
show their appreciation of the work
done by the senators, in landing a
pennant for Columbus by allowing the
players the use of Neil park free of
charge for two weeks for exhibition
purposes and giving them a check for
\$500 to be divided among the players.

JUDGE ADVISES A REOPENING.

Saganaw, Mich., Sept. 19.—Judge
Beach today rendered a decision on
the application of Howard Hews, a
prominent citizen of Chicago, to have
a decree of divorce granted his wife
here August 18 set aside and the case
reopened. The marital difficulties of
the Hews family have resulted in a
curious tangle, Mrs. Hews having ap-
plied for and been given a decree of
divorce here Aug. 18 while Mr. Hews
was granted a divorce from his wife
in Chicago, Sept. 11.

Judge Beach's decision today says in
effect that if Mr. Hews will come into
this court with a certificate that his
Chicago decree has been set aside,
the judge will set aside the decree
giving Mrs. Hews a divorce and the
case can then be tried on its merits
here. Otherwise the decree of Au-
gust 8, granting divorce to Mrs. Hews
will stand.

AN IMPORTANT SALE OF LAND.

Los Angeles, Cal., Sept. 19.—What
is said to be the most important sale
of a large tract ever held under the
auctioneers' hammer in southern Cal-
ifornia took place in this city today
when 35,000 acres of land and the
town site of Chino in San Bernardino
county were sold.
With the exception of forty acres,
sold for \$1,000, the entire acreage and
town site was sold to a San Francisco
capitalist for \$1,000,000. From him the
Chino Land & Water Co. will acquire
title to the entire holdings.

ANOTHER COAST FIGHT FIXED FOR.

San Francisco, Sept. 19.—The Her-
era-Itanion match will take place,
both men having signed the articles
Forfeits of \$500 are to be posted and a
\$1,000 side bet will be deposited to-
day at noon. The papers call for a
meeting on October 17 at the Pacific
Athletic club of Los Angeles, the com-
batants to weigh 113 pounds ringside
and to receive 50 percent of the gross
receipts, to be divided 75 and 25.

TAKES FIRST STEP

Turkey Shows a Willingness
to Accede Demands
of U. S. Legation.

AMERICAN PROTECTION

Will Be Given the Armen-
ians Held Under Charge
of Murder.

Constantinople, Sept. 19.—Turkey
has taken the first step towards yield-
ing to the demands of the American
legation by admitting the right of the
American consular authorities to see
the Armenians, Vartanian, and Afar-
ian and investigate their claims to be
entitled to American protection. Con-
sul General Dickson has visited the
prisoners and has opened an inquiry.
Contrary to general report Minister
Leishman's audience with the Sultan
September 15 was merely a courtesy
visit and was not connected with the
present diplomatic difficulty to which
neither the Sultan nor Mr. Leishman
alluded.

Vartanian is charged with the murder
of a prominent Armenian mer-
chant, Apik Ondjian in Constantinople,
August 10. The crime was political.
Afarian is accused of participation
in the plot to assassinate the Sultan
July 21, when a bomb was exploded
at the conclusion of the Selamk cere-
mony, just as the Sultan was leaving
the Mosque. About forty persons were
killed by the explosion. Both Vartanian
and Afarian had been sentenced to
death, but owing to the intervention
of the American legation their
sentences have been quashed and new
trials ordered.

INTERNAL MATTERS

Formed Basis of Queen's
Speech at Reopening
of States.

FINANCIAL CONDITIONS

Of Country Demand That
Most Rigid Economy
Be Practiced.

The Hague, Sept. 19.—The States
General were re-opened today.
Queen Wilhelmina's speech after ex-
pressing her pleasure at the end of
the first Eastern war dealt with in-
ternal matters. She said the finan-
cial condition of the country im-
peratively necessitated an economi-
cal administration as the revenues
although increasing were not keep-
ing pace with the expenditures. An
extension of the sources of revenue
was necessary to meet the expected
deficit of 1906 and the expenditure
necessary for educational and social
reforms.

Regarding the defense of the
country the speech proposes the
universal preliminary training of the
youth of the nation in order to make
the whole people available for de-
fence, while means will be sought
to complete the fortifications of
Amsterdam as quickly as possible.
The speech also proposed obliga-
tory insurance against illness, inca-
pacity and old age.

TIME TO WORK

Something Must Be Done
To Restore

Confidence in the Public
Mind as to Safety of
Savings

IN LIFE INSURANCE.

National Association of the
Life Underwriters in
Annual Session.

Body Will Insist on Better
Methods and Strict
Management.

Hartford, Conn., Sept. 19.—Insur-
ance men to the number of about 125
from all over the country attended the
opening session of the convention of
the National Association of Life Un-
derwriters here today. The meeting
will continue through Wednesday and
Thursday, and the program provides
for the discussion of various interest-
ing phases of the life underwriting
business.

The formal opening of the conven-
tion was preceded by a meeting of the
executive committee at which finan-
cial reports were considered. There
are 2,032 members of local associa-
tions, a gain of 474 during the year,
according to the treasurers' report.

Addresses of welcome were made
by Governor Henry Roberts, Wm. F.
Henry, and L. C. Layton, president of
the Connecticut Underwriters' Asso-
ciation at the opening session of the
association. In his address, Governor
Roberts alluded to the recent distur-
bances in the insurance world saying:
"I am sure that in our deliberations
as a great body interested in the wel-
fare of those who through your solici-
tations have entrusted their savings
to companies you represent, you will
do all that is in your power to restore
confidence by insisting upon best
methods and strictest management of
funds you have been so largely in-
strumental in accumulating."

After the roll call of delegates and
the reading of the minutes of the last
convention, John Delph, of Cincinnati,
president of the association, delivered
his annual address. He said:
"During the year every one of the
thirty-one associations which affili-
ated last year has renewed its mem-
bership. Four associations were re-in-
stated and ten new associations were
enlisted under our banner. This
makes a total membership of forty-
five, a net gain of fourteen or 45 per-
cent."

In the matter of membership, New
York alone made an increase of forty-
one, New Jersey thirty-seven, and
Pennsylvania thirty-four. The thirty-
one associations made a net gain of
one hundred and fifty six. Added to
these are three hundred and eighteen
new members in the fourteen associa-
tions which have affiliated or been re-
instated during the year, making a
total net gain of four hundred and
seventy-five. This gives us a mem-
bership of two thousand and thirty-two.
New associations have been organized
in Lansing, Syracuse, Binghamton,
Evansville, Birmingham, Springfield,
Ill.; San Antonio and Canton.

"From a careful review of the re-
cords I found that less than 35 per-
cent of the local associations which
at various times had affiliated with
the national body were in good stand-
ing and represented by delegates at
the Indianapolis convention. They
were given serious consideration,
with the result that I became con-
vinced that this great organization in
which we all take so much pride needs
a closer relation with the local as-
sociations."

"We must reverse our thought and
our action; we must no longer look
upon the national association as
merely the flower and the fruit of as-
sociation work, to be plucked and ad-
mired on annual occasions. The na-
tional association must propagate its
speeches. That it may are and wax
stronger it must be the constant and
active fountain-head of life in new lo-
cal associations, and a newer life in
those which now exist. We cannot
live wholly upon the local bodies,
rather we must originate them, we
must sustain them, and they must
find their greatest incentive, their
greatest hope, their greatest vigor in
the national, the parent body."

DEATH LURKED IN THE FLAMES.

Toronto, Ont., Sept. 19.—One
fireman was killed, another serious-
ly injured and two others slightly
hurt in a fire that destroyed the
Brown Flour Mills on the Esplanade
today. Within ten minutes after
the firemen got to work on the build-
ing the main floor collapsed, burying
four of them. Captain Worrell was
instantly killed and Captain Sargent
probably fatally injured. Firemen
Robinson and Fox were cut and
bruised. The mill contained 10,000
barrels of flour and three hundred
thousand bushels of wheat. The
total loss is estimated at \$200,000.

POLAR STAR ANCHORED.

St. Petersburg, Sept. 18.—The
Imperial yacht Polar Star, which
left Peterhof September 17 with
Emperor Nicholas, the Empress and
their children for a cruise in Fin-
nish waters, is anchored in the
roads off Transund, the port of
Viborg.

BOMB HIDDEN UNDER PAPERS.

East Liverpool, O., Sept. 19.—When
Chief of Police John W. Wyman, en-
tered his office today, he was surpris-
ed to see the window immediately ad-
jacent to his desk open. A few min-
utes later he learned the reason, when
he discovered a dynamite bomb on the
window sill, hidden under a piece of
paper. The fuse was turned toward
the street and it is a theory that it
was meant to explode the carriage
after the chief entered.

Chief Wyman has served as an of-
ficer in Columbiana County for 20
years and has always been an active
anti-saloonist.

CROP CONDITIONS

Temperatures Over a Large
Section Were Favorable
to Growth.

HEAVY FROSTS NOTED

But in No Case Are They
Reported As Causing
Much Damage.

Washington, Sept. 19.—The weekly
summary of crop conditions issued by
the weather bureau today is as fol-
lows:

Except in New England and the
northern part of the middle Atlantic
states where a week ending Sept. 16
averaged considerably cooler than us-
ual the temperature was above the
normal and generally favorable, the
week being decidedly warm over the
greater part of the Central Valleys,
Gulf States and eastern Rocky Moun-
tain slope. Light to heavy frosts oc-
curred in the Rocky Mountain regions
and also in North Dakota, New Eng-
land and northern portion of the mid-
dle Atlantic states, but they resulted
in no serious injury. A marked fea-
ture of the week was the excessive
precipitation, accompanied in places by
high winds in the lower Missouri Val-
ley where much damage was done, es-
pecially in central and western Mis-
souri and Eastern Kansas. Wet weather
also proved damaging over large
parts of the middle Atlantic states
and portions of the South Atlantic and
east Gulf districts, while drought con-
tinues over portions of Texas. General-
ly favorable weather prevailed in the
central Gulf states, Tennessee and
most of the Ohio Valleys, and Middle
Atlantic states. Favorable weather also
prevailed in California and showers re-
lieved drought condition to a greater
or less extent in Washington. While
corn has experienced favorable condi-
tion over a large part of the corn belt,
late corn in the upper Ohio valley and
Mississippi valley is maturing slowly
and the crop in the lower Missouri val-
ley has suffered seriously from exces-
sive rains and high winds, especially
in Missouri, and Kansas. In the first
mentioned state a large part of the
crop has blown down or is badly lodg-
ed, much is under water and that in
shocks is beginning to mold. Over the
northern part of the corn belt from
two thirds to three fourths of the crop
is now safe from frost.

Nearly all reports indicate a very
light apple crop. Blight and rot in po-
tatoes continue to be extensively re-
ported in the principal potato produc-
ing states although fair yields are in-
dicated in some sections. Plowing for
fall seeding was interrupted by rains
in the lower Missouri and Ohio valley
and prevented by drought in portions
of the southern states, elsewhere this
work is well advanced.

DOCTOR ROSEN

Is Seeking Instructions
From Berlin.

Another Crisis Has Arisen
Between France and
Germany

IN MOROCCO MATSERS.

Last Conference of the Two
Countries Held Three
Days Ago.

Question of the Cession of
the Port of Mogador
Not Pertinent.

Paris, Sept. 19.—Another crisis has
arisen in the negotiations between
France and Germany relative to the
Moroccan conference. This has re-
sulted in a suspension of the meet-
ing between Dr. Rosen and M. Revoll,
respectively the special plenipotenti-
aries of Germany and France. Their
last meeting occurred three days ago
and there is no present sign of the re-
sumption of their conferences. Dr.
Rosen in the meantime is seeking in-
structions from Berlin but the extend-
ed delay begins to excite apprehen-
sion in official quarters that Germany
will not yield upon points which
France considers essential. Both
sides show anxiety and the strain
promises to seriously affect the
Bourse.

The foreign office, however, con-
tinues to view the situation as be-
ing susceptible of adjustment and
specifically denies the alarmist report
in a French newspaper that Germany's
demands include the port of Mo-
gador upon the Atlantic coast of
Morocco.

The following official statement was
made to The Associated Press today
on the subject:

"The question of the cession of the
port of Mogador does not enter into
the negotiations in any form for the
obvious reason that Germany and
France in their exchange of notes
have specifically agreed to maintain
the integrity of Moroccan territory.
Therefore it is impossible to negotiate
upon the cession of Mogador or any
other part of Moroccan territory."

CORNICE WORK FELL ON MEN.

Cleveland, Sept. 19.—The Cornice
work on the top of the new physics
laboratory at the Case School of Ap-
plied Science, fell today upon four
men working on the wall a consider-
able distance above the ground. They
were hurled to the earth and Joseph
Hunter was hurt internally and will
die. The others, Bert Whitehouse,
Edward Kelly and Fred Koresky were
seriously injured, but will recover.
The Cornice is supposed to have given
away because of a flaw in the iron
work supporting it.

CANADIANS ARE MIXED IN DEAL.

Toronto, Ont., Sept. 19.—The Onta-
rio fishing department will institute
a rigid investigation of the alleged
fishing by American firms in Lake
Erie. It is said that thousands of tons
of fish illegally taken are shipped to
the U. S. every week.

The chances taken by fishermen
on Lake Erie of clashing with the
government cruisers Vigilant are not
the only means taken by American
firms to get fish from Canadian wa-
ters, according to a government of-
ficial. It is alleged that they secure
the service of licensed Canadian
fishermen and supply them with nets
and tugs. The Canadian fishermen
then turn their catches over to boats
belonging to the American companies.

THE ELECTION CAUSED A RIOT.

El Paso, Texas, Sept. 19.—A private
despatch from Coahuila, Mexico,
says riots followed Sunday's gubernar-
tial election and several persons
were killed in Salto, the state capital.
The report is considered reliable but
no details have been received.

EPIDEMIC IS CHECKED.

Washington, D. C., Sept. 19.—The
German government has declared
the cholera epidemic to be checked.
Ambassador Tower cabled the state
department today from Berlin to that
effect.

EVERY HOUR OF THE DAY

G. W. Helster, the reliable druggist
of 58 Public Square, is having
call for "HINDIPO," the new Kid-
ney Cure and Nerve Tonic that he
is selling under a positive guaran-
tee.

Its merits are becoming the talk
of the town and everybody wants
to try it, and why not? It costs noth-
ing if it don't do you good—not one
cent.

They don't want your money if it
does not benefit you, and will cheer-
fully refund the money. Try it to-
day.

become a resident of south Lima. He
has been promised a position with the
Locomotive Works.

Mr. and Mrs. J. Penner, of Scott, are
visiting their daughter, Mrs. R. Bay-
less and Mrs. D. Long.

Mr. and Mrs. Frank Stepleton and
son, Mr. and Mrs. E. L. Kraft, Jr.,
and children, Mrs. Ellen Hillis, Mr. and
Mrs. John Mohr and children, and Mrs.
John Mohr, Sr., spent Sunday at the
home of David Stepleton in Shawnee.
Rev. A. M. Crist, of south Pike
street, is at present attending con-
ference.

After a pleasant visit with Mrs. A.
F. Palmer, of south Main street, Mrs.
Davis and Mrs. Ella Kildner returned
to Bethesda today.
Mrs. Mary Mitchell, of east Kibby
street, is seriously ill. Her son, Rev.
Clarence Mitchell, of Mannington, W.
Va., has been notified.
Mrs. G. J. Strassman, of south Main
street, is entertaining her sister, Miss
Grace Sherwood, of Greenville, Pa.
Mr. and Mrs. H. D. Merrill, of St.
Marys, were guests yesterday of her
brother, G. G. Bashore, and wife, of
south Main street.

Having attended the funeral of Jo-
seph Price, a relative, at Dunkirk, Mr.
and Mrs. Daniel Klinger, and Mrs. Ed.
Williams, of Oak street, have returned.

Pact Swollen to Immense Size
"I had kidney trouble so bad," says
J. J. Cox of Valler View, Ky., "that
I could not work, my feet were swollen
to immense size and I was confined to
my bed and physicians were unable to
give me any relief. My doctor finally
prescribed Foley's Kidney Cure which
made a well man of me." Avoid ser-
ious results of kidney or bladder dis-
order by taking Foley's Kidney Cure.
H. F. Vortkamp and Wm. Melville.

A WOMAN NEVER DOES.

A loafer on the street, whose wife
was probably at home getting out a
neighbor's washing to make money, to
buy the children shoes, asked a busy
man the other day if he ever saw a
baldheaded woman.

"No, I never did," replied the busy
man. "And I never saw a woman
waiting around town in her shirt
sleeves with a cigar in her teeth and
running into every saloon she saw.
Neither did I ever see a woman sitting
all day at a street corner on a dry-
goods box, telling people how the sec-
retary of the treasury should run the
national finances. I have never seen
a woman go fishing with a bottle in
her pocket, sit on the bank all day and
go home drunk at night. Nor have I
ever seen a woman yank off her coat
and say she could lick any man in
town. God bless 'em the women are
not built that way."—Kansas City
Journal.

TWO WONDERFUL WOMEN.

(From the New York Tribune.)

A visitor to the West Cemetery at
Litchfield, Conn., found the following
interesting inscriptions on tombstones
there: "Here lies the body of Mary,
wife of Dr. John Buel, Esq. She died
Nov. 4th 1768, age 94 having 13 chil-
dren, 101 grandchildren, 724 great-
grandchildren; 22 great-great-grand-
children—total, 410; 336 survive her."
Another: "Sacred to the memory of
Inestimable Worth of Unrivalled Ex-
cellence & Virtue, Mrs. Rachel, wife
of Jerome B. Woodruff & daughter of
Norman & Lela Barber, whose ethical
parts became a seraph May 24, 1835,
in the 23 y'r of her age."

Is to love children, and no
home can be completely
happy without them, yet the
ordeal through which the ex-
pectant mother must pass usually is
so full of suffering, danger and fear
that she looks forward to the critical
hour with apprehension and dread.

Friend, by its penetrating and soothing properties,
its nervousness, and all unpleasant feelings, and
the system for the
safe passes through
safely and with but
fearing, as numbers
said and said, "It is
weight in gold." \$1.00 per

CREAMLESS SLEEP.

There is no such thing, according
to an English Scientist.

According to Sir Arthur Mitchell of
English fame, there is no such thing
as dreamless sleep; that thinking is
involuntary—to the extent at least that
we cannot cease to think under any
order of the will; that thinking never
ceases during life and is essential to
the continuance of life; that dream
thinking is uncontrolled and undirect-
ed by the will, a never coherent and
concentrated, is more or less of the
same character as thinking in delirium
and constitutes a state of mental dis-
order which is not a state of disease;
that thinking when awake is always to
some extent under the control of the
will by which it is directed to a sub-
ject and kept there; that there are
many degrees of sleep and wakefulness
and as many degrees of efficiency in
the controlling power of the will; that
thinking, like breathing or the beating
of the heart, does not cause a sense of
weariness, though all three have a
wearing effect on all the organs con-
cerned; that the will's inhibiting and
directing work brings fatigue and a
demand for rest; that the will finds
this rest and refreshment in sleep and
that the frequent occurrence of a state
of disordered mind in sleep does not do
us harm, but on the contrary does us
good.

A BABOON HUNT.

Monthly Suggestion of Slughter of
Human Beings.

A traveler writing from South Africa
describes a baboon hunt as follows:
"Very slowly we spread out round
about the base of the kopje and began
a crawling ascent through the thick
scrub. Kaffirs and farmers together,
we formed something of a loose circle
around the kopje. Daylight found us
drawing near the higher spurs of the
kopje and the Kaffirs were busy beat-
ing."

Then the sport began, and pretty un-
canny it was. A good many baboons
broke through our circle, for we only
mustered seven guns, but as we neared
the top of the kopje I could tell by
the noises all about me that some ex-
ecution was being done. My first kill
gave me a most uncomfortable thrill.
It was horribly like picking off a man.
"The baboons were great big, human
looking brutes, quite capable of pick-
ing up a lamb in their hands and run-
ning off with it. As a fact, they gen-
erally content themselves with tipping
the beast open to get at the curried
milk within. But their cries were the
most horribly human thing about them
and the gestures of their waving arms.
When we all met a careful count was
made. Thirty baboons had been
bagged. Seven had fallen to my gun."

HAARLEM IN HOLLAND.

An Old Description of the Bustling
Dutch Town.

There may not be many points of re-
semblance between Harlem in New
York as it is at present and Haarlem in
Holland as it stood more than a cen-
tury ago. The following translation
from an old description of the Euro-
pean Haarlem shows, however, that it
was quite a bustling place:

"Haarlem, that wonderful grotesque,
with its canal, where the blue water
trembles, and the church where the
golden glass windows flame, and the
stone balcony where the linen dries in
the sun, and the roofs green as hops,
and the storks that flap their wings
round the town clock, stretching out
their necks high in the air and catch-
ing the drops of rain in their beaks,
and the heedless burgomaster who
strokes his double chin with his hand,
and the infuriated florist who grows
thin, his eyes fixed on a tulip, and the
Bolshevik who falls fainting on her
mandolin, and the old man who plays
the remeipiot, and the child who
blows out a bladder, and the drinkers
who smoke in the dingy wine shop,
and the malcontent at the hostelry
who hangs up a pheasant at the win-
dow."—New York Herald.

The Teacher.

The teacher must get away from his
work for awhile if he wants to regain
freshness of life. The weariness at
Friday afternoons, when relaxation
makes him conscious of the strain of
the week's work, is nature's call to the
need of rest. If he does not heed this
call his efficiency will decline. A jaded
teacher cannot arouse interest, and
without interest instruction is devoid
of value. Full teaching is a fraud up-
on humanity.—Teachers' Magazine.

A Mystery Explained.

"It's strange that you should always
be so gaunt," remarked the bear to the
wolf.

"Well, you see," replied the wolf, "it's
all because of the part I'm compelled
to play in life. You see, I'm always
obliged to keep from the door until
there's not a thing left in the house to
eat."—Philadelphia Press.

An Also Man.

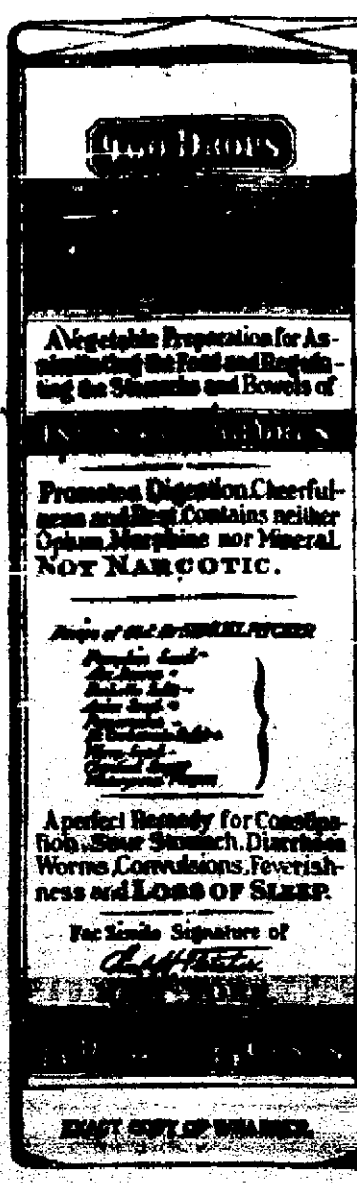

Clara—Did the papers notice your
father at the great banquet? Johnny.
Yes, Clara—Well, mamma said she
could not see his name on the list.
Johnny—No, but the list ends up with
"and others." That means papa. They
always mention him that way.—Illus-
trated Bits.

Customary Predecessor.

"How is your son getting on in his
new position?"
"First rate," answered Farmer Cor-
ntown. "He knows more about the
business now than the boss does. All
he has to do is to convince the boss."
—Washington Star.

The responsibility to tolerance lies
with those who have the wider vision.
—Ellot.

A pup looks so mild and innocent
that we hope it will turn out better
than others of its kind; but it always
turns out a dog.

RESOLUTIONS OF RESPECT.

The following resolutions of respect
on the death of our esteemed brother
Richard Allen, of Solar Lodge, No.
788, I. O. O. F., have been passed:

Whereas it has been the will of Al-
mighty God to remove from our midst
our late brother, Richard Allen and
whereas it is but just that a fitting
recognition of his many virtues should
be had. Therefore, be it

Resolved, that while we bow with
humble submission to the will of the
Most High, we do not the less mourn
for our brother who has been taken
from us.

Resolved, that in the death of Bro-
ther Allen, this lodge laments the loss
of a brother who was ever ready to
proffer the hand of aid and the voice
of sympathy to the needy and dis-
tressed of the fraternity, an active
member of the lodge whose utmost
endeavors were exerted for its welfare
and prosperity; a friend and compan-
ion who was dear to us all; a citizen
whose upright and noble life was a
standard of emulation to his fellows.

Resolved, that the heartfelt sym-
pathy of this lodge be extended to his
family in their affliction.

Resolved, that these resolutions be
spread upon the records of the Lodge
and a copy thereof be transmitted to
the family of our deceased brother
and to each of the newspapers of
Lima.

HARROD ROUTE NO. 3.

Robert Hughes McGinnis was born
in Ross county, near Chillicothe, O.,
Sept. 12, 1830; died Sept. 12, 1905, aged
75 years. He was married to Cath-
arine Ann Horney, Jan. 1, 1857. To
this union was born seven children,
four boys and three girls. Wilbur, of
North Dakota, Edgar, Minnie; Robert
Frank, who preceded his father last
June; Lena Ann, who departed this
life five years ago, and James and Ora.
Mr. McGinnis came to Auglaize
county thirty years ago. When fifteen
years of age he united with M. E.
church, but for the past thirty-nine
years he has been a member of the
M. P. church.

Mrs. McGinnis died Feb. 4, 1902.
Uncle Robert leaves many friends
who sympathize with his bereaved
family. He was a devout christian and
a respected citizen.

The funeral services were conduct-
ed by Rev. Christopher, of Ada, O.,
and the remains were laid to rest in
the Pleasant Hill cemetery.

Mr. Fred Davison is suffering from
typhoid fever.

Mrs. Hannah Bailey, of St. Johns,
spent the latter part of last week
with Mr. Melvin Vermillion and fam-
ily and Mr. G. M. Peppie and family.

Mrs. George Rogers is suffering with
hay fever.

Backache is never known to those
persons who take an occasional dose
of Plaster. The value of the resin ob-
tained from the Pine Tree has long
been recognized in the treatment of
diseases of the bladder and kidneys.
One dose of Plaster will give relief,
and one bottle will cure.—Sold by H.
F. Vortkamp.

A MUSHROOM TOWN DOWN EAST.

[Chicago Record-Herald.]

Some very big figures are coming
out of New York nowadays. A
state census, which has been growing
the more it has been thought over,
credits the city with 4,149,622 in-
habitants, according to recent fore-
casts, and may do better yet before
the expert accountants get through
with their work. Then there is the
building record, permits for eight
months mounting up to \$159,000,000.
Finally we have the school statistics.
It is confidently predicted that the
pupils enrolled in the schools this
year will number 400,000.

Now, a state census is not neces-
sarily reliable. According to the
New York state census of 1892 the
old City of New York had a popula-
tion of 1,801,739 in that year, but
eight years later the same territory
was credited by the federal census
with a population of only 1,350,093.
Obviously the future was antici-
pated to a large extent in 1892, but if
a state census may be a romantic af-
fair, buildings and children are un-
mistakable evidences of growth, and
the New York figures concerning
them are really remarkable. Though
a big city would naturally have a big
building bill, the case that New York
presents is that of a big city that is
affected by something resembling the
rush of a boom town. The invest-
ments are greatly in excess of what
would be expected from a normal in-
crease. They tell of an extraordinary
concentration of capital, of benefits
that New York is deriving from the
contribution of the entire country.

In estimating population from
school enrollment there is no multi-
plier that can be used with absolute
certainty, and the registration for
the year is as yet a matter of guess-
work. But it is known that 568,332
pupils were registered last year, and
the probable increase would bring
the number close to 600,000. Taking
this as a basis, and allowing for some
range in the calculation, the local
mathematicians have inspiration
enough for claims of four millions
"and up."

If, however, there is such an in-
crease as \$28,620 in five years,
which is one of the claims that are
made, the record breaking is wonder-
ful indeed. For this is at the rate
of about 24 per cent in the half de-
cade, and the increase between 1890
and 1900 was only 38 per cent. Fur-
thermore, in going back to the de-
cade between 1880 and 1890, the
percentage was still smaller, so that
we have a steady increase of per-
centage or a reversal of the natural
order in such a large city. On this
showing our own calm judgment is
that the rate between 1910 and 1920
will be 100 per cent, and that the
population at the latter date will be
about twelve million.

WAS A VERY SICK BOY.
But Cured By Chamberlain's Colic,
Cholera and Diarrhoea Remedy.

"When my boy was two years old
he had a very severe attack of bowel
complaint, but by the use of Cham-
berlain's Colic, Cholera and Diarrhoea
Remedy we brought him out all right,"
says Maggie Hickox, of Oakland, Mich.
This remedy can be depended upon in
the most severe cases. Even cholera
infantum is cured by it. Follow the
plain printed directions and a cure is
certain. For sale by all druggists.

We will not be satisfied to let this
season pass into history because it
has failed to develop a blueberry pie.

PRACTICAL PRACTICE.

The way to learn to do a thing is
to do it.

The way to learn to conduct a
business is to conduct one.

Practice makes perfect—and also
makes theory look like a coin of
very small denomination.

A business course at the Lima
Business College begins in actual
practice—continues in actual practice
—and ends in actual practice.

We spent over \$500.00 equipping
our college with splendid separate
offices applying to Transportation,
Retail, Wholesale, Commission and
Banking. Each office is supplied
with the books, including all neces-
sary appliances for all ledger
work, loose leaf ledger system, card
ledger system and all the other
modern office time-saving devices
that are used in similar offices in
the business world. These books
must be kept, transactions pertaining
to the business of each office made,
and the entire business of each office
conducted by the Lima Business Col-
lege students. The student knows
what he is doing, why he is doing it,
and what would happen if he made
a mistake while doing it. He is
in business for himself. If he runs
across a "snag" he won't find the
answer in the back of the book.
He is taught to rely on himself. This
gives self-confidence and self-con-
science blossoms out into success.

Call, phone or write for catalogue
and other literature.

Hood's Pills

Sold by all druggists. 25 cents.

In his benefit from trusts and life insurance companies on a reciprocity basis. There is therefore a possibility that the administration may take some steps to rectify the evils these concerns are inflicting, in response to the popular and just outcry of the people. However, in the light of recent startling developments, the taint of corrupt politics will forever leave a blemish on the public life of President Roosevelt, and George B. Cortelyou.

JUDGE PARKER TALKS.

To a correspondent of The Associated Press who called at Rosemont, Judge Parker's home, and asked him if he had anything to say in relation to the statement made by Vice President George W. Perkins, of the New York Life Insurance company, before the legislative committee investigating the insurance business, to the effect that President John A. McCall, of that company, had caused a contribution of about \$50,000 to be made last year to the republican national campaign fund, Judge Parker said:

"Yes, I believe I ought to say, now that there is no political excitement to distract the public attention, that the president of the New York Life was not the only such contributor. The officers of other great life insurance companies, such as the Equitable and the Mutual also contributed from the policyholders' funds for campaign purposes last year.

"What has been proved in the case of the New York Life will undoubtedly be proved in the other cases. The facts exist and honest and able counsel, backed by an honest committee, will undoubtedly bring them out for the public good.

"Were there an investigation of railroad, manufacturing and other corporations, it would be found that these life insurance officers were not the only corporation officers who put their hands into the treasury and took out moneys belonging to widows and orphans to help secure a partisan triumph.

Declared to Be Corrupt.
"That their acts were unlawful and their purposes corrupt, goes without saying. They intended to have the money used, as it was, in corrupting the electorate. Perkins makes the point that Mr. John A. McCall, president of the New York Life, is a democrat. Apparently he would have the public assume that when Mr. McCall unlawfully and wrongfully contributed these funds—the company's share probably as a member of the underwriting syndicate—it was evidence of political virtue, rather than misconduct.

"The truth about it is, and I say it without feeling, but emphatically, that men like McCall have no political convictions that stand in the way of their personal advantage. Such men desire the triumph of that party which will better serve their personal financial interests and will—for contributions, past, present and future—continue to protect those interests by lenient legislation and by pretense at execution of law which shall be tenderly blind to all their offenses. That party they espouse in the board room and contribute to it of the moneys they hold in trust, and occasionally a little of their own. The underlying principles which divide the great mass of the people into parties have no effect on such men. Their one inquiry is, will the party organization in its hour of triumph remember our generosity and respond to our demands?

More Is Expected.
"Of course the organization does remember, for it expects a similar contribution next time. And the expectation is not in vain. Last year was not the first time such contributions had been made before in national state and municipal elections.

"The officers responsible for these raids on the treasuries of corporations have received their reward in unfettered management of life insurance corporations; in unembarrassed raids on the public through trusts—condemned by both common and statute law; in refusal to punish criminal officers of railroad and other corporations violating the laws; and in statutory permission to manufacturing corporations to levy tribute on the people.

"There can be no hope of checking the unlawful aggressions of officers of great corporations so long as they may thus form a quasi partnership with the organization of the dominant political party. For in the hour when the administrative official seeks to punish the offender he is reminded by the head of the organization of the magnitude of the contributions of the corporations.

Demoralization of Voters.
"There is, however, something worse if possible, than the escape of such offenders from justice. It is the gradual demoralization of voters and the dulling of the public conscience caused by the efforts to make these vast sums of money procure the bal-

lot they were intended to procure, corruptly and otherwise.

"It is not my purpose to claim that the democratic party, subjected to the temptation which has overcome the other party during the last few years, would have acted differently. Mere party advantage should not be sought from the disclosures made in this investigation. But the facts should be diligently sought, that the people may become so aroused that they will insist upon legislation making it a criminal offense for officers to contribute corporate funds for political purposes and depriving the apparently successful candidates of their offices.

"Efforts in that direction have been making in different states since November last and particularly in this state. But the republican organization would not consent to it, so the legislature defeated the bills. And the organization never will consent until an aroused public sentiment shall threaten legislators with political oblivion who fail to enact effective laws on the subject."

SPLENDID MAN OUT.

The retirement of Mr. Albert Heffner, democrat, from the board of county commissioners Monday as the result of a political fiasco last fall is a matter of deep regret to a great majority of the taxpayers of the county.

Mr. Heffner, all his life has been a prominent and respected citizen of the county, and a successful man of affairs.

In his capacity as commissioner he intelligently, honestly and fearlessly served his constituency, always safeguarding their interests without regard to political complexion.

The merits of his work as a public servant will be more fully appreciated a year hence, and there is every probability that Mr. Heffner will yet be allowed to serve his second term in the office.

The record of a long line of democratic commissioners is a meritorious one, and the taxpayers will find that a change will bring them nothing better than they have had, and not as good, if the business management of Lima's municipal affairs by republican boards are taken into comparison.

The Times-Democrat extends to Mr. Heffner full credit for his high conception of what are the duties of a public official, and in his retirement we wish him health and continued prosperity.

WHO GOT THE DIFFERENCE?

John A. McCall and George W. Perkins officials of the New York Life Insurance company gave to J. P. Morgan & Co. a company check for \$50,000 to be used to defeat Judge Parker for president.

Perkins when placed on the stand swore that Cornelius N. Bliss, treasurer of the republican national committee had been given a check—and he produced the document—for \$48,702.50. That left a balance of the contribution of \$1,297.50.

Attorney Hughes should find out what disposition was made of that sum.

It might be found that it drifted into the coffers of Morgan & Co. as a commission, or into Perkins' pockets as a reward for his diverting of the New York Life's funds into political channels.

JUST ORDINARY.

The campaign contribution of the New York Life Insurance Company to the republican campaign fund in 1904, "must not be considered as an ordinary contribution," says the editor of the Republican-Gazette.

Mr. Perkins said to the investigating committee that President McCall gave the same amount—fifty thousand dollars—to the republican committee in 1896 and again in 1900.

If three times giving of the same amount don't constitute the contribution as an ordinary one for prostituting election, then there is no word in the English language to demonstrate the class this contribution belongs in.

DEFENDS PERKINS.

It is not at all surprising that our esteemed morning contemporary should come to the aid of the officials of the New York Life Insurance Co., and offer excuses for their annual contribution to the republican national campaign fund, of fifty thousand dollars, rightfully the property of the policy holders.

It was through this contribution and hundreds that came through the same channel that the position of postmaster became a possibility for Mr. W. A. Campbell, and it would be unkind not to recognize their power and righteousness.

The uncovering of the destruction of the sanctity of the ballot with money contributed by trusts and the other favored creations of the administration is not a democratic issue or a false issue.

From all corners of the land, democrats and republicans alike are crying out for relief from the abuses and robbery heaped upon them by the lawless combinations that have been made possible through a high protective tariff, and the easy oversight by the administration of their throat cutting of the people.

There is no parliament in the uprising. It is a just demand that public trusts be honestly administered,

and that the power of the administration be not used to protect them in return for dollars.

LIMA COLLEGE

Has Its Faculty Increased In Numbers.

Two Eminent Instructors
Take Charge of New
Departments.

MANY NEW STUDENTS

Are Also Arriving to Enter

Upon Studies in the
Institution.

Pharmacy and Law to Be
Added to Other New
Departments.

PROF. J. A. CHRISTMAN.

That Lima College is rapidly advancing in every way is proven by the fact that new students are entering in all of the departments daily and the faculty has recently been enlarged by the addition of two very strong men in their respective departments.

In the commercial department, Prof. J. A. Christman, for ten years at the head of the commercial department of the State University of Colorado, has accepted the position as head of the commercial department of Lima College. Prof. Christman is eminent in his field. He is a graduate of the Eastman National Business College of Poughkeepsie, N. Y. He is one of the finest penmen and thoroughly understands his work, being an experienced man in all grades of public school teaching.

This department of the college has recently been newly equipped with all the apparatus necessary, making it a very attractive place.

In the engineering department, Prof. Arthur Blaser has been secured as the head of the department. Prof. Blaser is a graduate of the University of Wooster, class 1903 and was first honor man of his class. He is also a graduate of the Case School of Applied Sciences, Cleveland, O., and has had a wide experience in practical field work in civil engineering. He was one of the trusted employees of the King Bridge Co., at Cleveland, O., when secured by the management of Lima College. Prof. Blaser is a skilled mathematician, having been in charge of the mathematical department of the Wooster Summer School for a number of years. It is thus readily seen that he brings to his chosen profession a wide range of practical knowledge and of exceptional culture.

Other departments will soon be established, namely: Pharmacy and law. The class of students in attendance at Lima College is of high grade, many of them coming from the best families of Lima and of various portions of the state. It would be well for our citizens as they have opportunity to pay a visit to the college. A large amount of money has recently been expended on the interior decoration of the building and the equipment in all departments is thoroughly new and up-to-date.

It is understood that a high grade lecture course employing some of the finest talent in the United States will be given this year by the college.

The college was honored yesterday by a short visit from ex-President H. S. Lehr.

You will need to prepare your system for the coming cold weather, get your organs to work like clock work. Hollister's Rocky Mountain Tea taken this month will do the business. 35c. Tea or Tablets. H. F. Vorkamp.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. All Druggists will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable.

Unhitched Team.

Plaintiff in Bowyer Case on
the Stand For Two
Hours.

WITNESSES ARE HERE

From All Over the County
in Behalf of the
Plaintiff.

Two New Divorce Actions
Filed By Well Known
Limaites.

The divorce action of Isaac W. Bowyer vs. his wife, Minnie E. Bowyer, who came from Los Angeles to defend her case, and pretest property interests of self and children, several thousand dollars worth of property being at stake, started late this morning before trial judge, Hugh T. Mathers, who came up on special request to hear the case.

As we go to press, but one witness has been introduced, and he is the plaintiff who was put on the stand by his counsel, Judge John E. Richie, who occupied the morning session in direct examination, and is still being pried by questions in cross examination by counsel for the wife, Attorney Don C. Henderson.

To prove that portion of his pleading alleging cruelty the husband testified that his wife attacked him with a butcher knife when they resided on the old farm near Eldon, and seriously injured him, and for sympathy told him if he would not attend to his own business he would not get hurt. The husband in his testimony stated that troubles were occurring all the time and that on a second occasion he was struck in the back with a club and felled to the ground, while his wife gave him comfort in the words, "There, take that," as she walked calmly away.

His testimony throughout was to the effect that Mrs. Bowyer has always been the business manager, and handled all the cash, and that when they went to California he worked at his trade, and when paid would hand her all the money save that saved out by him for tobacco. To prove that Mrs. Bowyer was really "Boss," the plaintiff stated that on one occasion he started to sell a load of hay out near Eldon, loaded the hay, was on the wagon driving to the mart, when his wife saw him; stopped the horses, asked what was doing, and when informed, quietly unhitched the horses, and led them back to the barnyard.

"And what were you doing all that time?" asked Attorney Henderson when he recalled the instance in the cross examination.

"I was on the wagon, and stayed there," replied the husband.

Attorneys for both sides went into the California deals minutely, which showed Mrs. Bowyer had been the manager throughout and had refused to allow Mr. Bowyer to conduct any of the business. The case will not likely be finished before late this evening, if it does not go over until tomorrow, as there is a bitter legal fight being waged.

Subpoenaed as witnesses and in the court room for the plaintiff are: Andrew Weger, Amos Snyder, Jacob Boggs, Miss Sylvia Haller, Mrs. Elizabeth Haller, Ida Davis, James Ford, Dr. Goodwin, John Luttrell, Charles M. Boyer, Lizzie Holzfoister, Martha Jewell, Mrs. James Leach, Geo. Stevens, Laura Stevens, Mrs. Ida Knittle, while for the defendant are witnesses including: Madison L. Bowyer, Della Bowyer, Charles Gottfried, N. W. Stomen and the wife and two daughters.

ELECTED AT ADVANCE.

Dr. E. C. Weadock Chosen For Another Term as Physician.

The county commissioners have re-elected Dr. E. C. Weadock as jail physician for another term and at an advanced salary.

The business of the day was confined to hearing of sheep claims. A new ruling for compensation in these claims has been made, which permits of their presentation at each quarterly settlement, but payment on same will be made only on the first Monday of June each year.

The new board of commissioners has also inspected the county jail and found it in excellent condition.

TWO DIVORCE ACTIONS

Wives are Plaintiffs and Both Charge Gross Neglect.

Helen E. Ferrai has brought suit against her husband, Orlando R. Ferrai for divorce. The couple married

November 24, 1897 and have one minor child. Plaintiff charges gross neglect and extreme cruelty. She also asks for alimony ending April 1, and reasonable attorney after the trial of the case on merit.

Mary E. Herring alleges her husband, John W. Herring has been guilty of gross neglect and extreme cruelty, and under the latter head states that in April of this year, he attempted to kill her and child with a revolver. They were married April 18, 1895 and have one child, whose custody is sought by the mother together with alimony.

A Spencerville Lad.
George Surka, a Spencerville youth of sixteen years, was given a hearing before Judge Miller and found guilty of larceny. He has been given a term in the Lancaster reform school and will go down tomorrow.

Huber Farm Sold.
A transfer filed today shows the sale of the farm of Jesse Huber, the former attorney here, consisting of 80 acres in Richland township, which was purchased by J. R. Raudabaugh for \$5,600.

STINGING MOSQUITOES.

Birds Suffer More From These Pests Than Does Man.

"Birds suffer more from man than from the mosquito," a naturalist said. "Frequently the mosquito can't get at man, but birds he can always get at. The male mosquito is harmless. He never stings. It is the female who does all the mischief. Male and female alike live through the winter. After the mosquito's eggs are first hatched, the creature that issues forth is called a wriggler. The wriggler lives in water, in marshy pools, in the mud and the ooze of low lying meadows. He is like a tiny snake, and he must come to the surface to breathe. Hence he comes to the surface to exterminate. Laid out kerosene on a pool of water and two tablespoonfuls will spread until they cover effectively fifteen square feet. This oily covering is air tight as a skin. If there are any wrigglers in the water under it they must die, they must smother. Some think mosquitoes feed on blood alone. This is a mistake. If a mosquito can't get human blood or bird blood or animal blood, it eats plants and feeds on their juices."

Philadelphia Bulletin.

FAIR BUSINESS IN WOOL MARKET.

Boston, Mass., Sept. 19.—A moderate business has been done in the wool market with the chief activity in territories. Dealers find no difficulty in making sales at firm prices. Fleeced wools are in a strong position and the market shows no indication of a weakening in quotations. Ohio and Penna. fleeces are quiet. Quarter bloods sell at 34@35 and 38@36. Michigan 38 is quoted at 34@45 cents. 1/2s at 33@34 1/2 blood at 32@33 cents and fine unwashed at 25@26.

WATCH THE BLACK BOARD AT CATT & DE GRAYS CIGAR SHOP.

TWO INSPECTORS IN THE TOILS.

Washington, D. C., Sept. 19.—The department of commerce and labor issued an order for the arrest of Edward Boits and Chas. W. Stevenson, Chinese inspectors in the emigrant service. They were charged government has been enforcing the Chinese exclusion act, that an inspector has been guilty of such an offense.

BLOODHOUNDS ENGAGED.

Jackson, Ohio, Sept. 19.—Bloodhounds were sent to Oak Hill today where burglars last night dynamited the postoffice, and got \$300 in stamps and escaped.

WATCH THE BLACK BOARD AT CATT & DE GRAYS CIGAR SHOP.

ATCHISON GLOBE SIGHTS.

Most people have a passion for visiting ruins.

An excuse never accomplishes all it is expected to accomplish.

When you are in a hurry for a thing, how slow it travels!

Treat everyone as though you expected him to some day be your enemy.

The burly beggar looked dubiously at the tiny silver coin.

"Look here, mum," he said, "in this wicked world we don't often get the chance to enjoy ourselves. Why not make it a shillin' and ave a 'real good time'?"

Added Pleasure.

(From an exchange.)

"Here, my good man," she said one day last week to a man who had begged alms of her, "here is a 3-penny piece, and please to understand that I do not give this because I hope to be rewarded for my charity some day, but because it gives me pleasure to do so."

The burly beggar looked dubiously at the tiny silver coin.

"Look here, mum," he said, "in this wicked world we don't often get the chance to enjoy ourselves. Why not make it a shillin' and ave a 'real good time'?"

ing Fast NEW INDUSTRY

Found for the Kentucky Oil Men.

Streams Can Be Dredged For Pearls During the Winter Months.

FEW FINE PRODUCERS Being Drilled in Kimball Field in the County of Wayne.

Many Leases Are Being Taken Every Direction From Production.

Somerset, Ky., Sept. 19—Just at the present time the weather is most fine throughout the oil regions of Kentucky, and within the coming couple of months the trade from the northern fields will emigrate this way. There are great prospects ahead for the Kentucky oil region, especially in Wayne county, where some remarkably fine producing wells are being brought in.

The pearl hunting along the Cumberland river has also become a fad of the oil men, and many of them will be seen at Burnside and Mill Springs for that purpose as they take that style of an outing. The late advance in the price of crude oil in this field will all so have a tendency to start up more active operations. Many leases are being taken in all directions from producing territories, and that means a few wells will be drilled in the interior. Another county that must be looked upon as an important one is Wolfe's where a trio of very fine producers have been brought in. The Wayne county pools at Steubenville, Farmington, Cooper, Oilton and Beaver Creek are the attractions, and while many dry holes have been found around Mill Springs a number of test wells will be put down this fall by Ohio, Indiana and Michigan companies.

In the Wayne county field, the Kimball Oil company's No. 10 on the S. & J. Keeton farm, started at 20 barrels. The same company's No. 5 and 6 John Keeton farm, did 15 and 40 barrels respectively. Marsh Bros. No. 7 on the Davenport & Bell farm, did 20 barrels. The Licking Valley Oil company struck a duster in No. 1 on the W. C. Bell farm, and Wetzel & Co. bit one of the same kind in a test on the John Keeton farm. The Chenoweth Oil company found a dry hole in No. 13 on the E. E. Roberts farm, while Vogler Bros. did just the opposite by drilling in a 50 barrel producer in their No. 4 on the A. Hart farm. J. M. Brooks has a 5 barrel pumper in his No. 2 on the W. K. Cross farm. Jones, Byrnes & Wilcox's No. 26 well on the James Dodson farm, did 15 barrels. Wood, Kennedy & Currie have a 25 barrel producer in No. 3 on the Mike Broyles farm. The Kerkens Oil company's No. 3 Jones heirs farm, did 5 barrels. The Pennsylvania Oil company's No. 4, a James Alexander farm, and the Federal Oil company's No. 2 on the J. L. Bohon farm, were dry holes. Hibbs & Co. have one of the same kind in No. 5 on the John Barnett farm. African, Black & Co.'s No. 7 Minerva Koonz farm, did 10 barrels. The St. Louis-Kentucky Oil company's No. 7 A. H. Spann farm, did 10 barrels. The Bradford Oil company's No. 15 A. H. Spann farm, did 10 barrels. The Burr & Proe Oil company's No. 5 Stone & Wallace farm, was a duster. The Mayfield Oil company's No. 37 on the Moses Upchurch farm, did 35 barrels. Williams & Rasons No. 1 on the C. A. & A. M. Williams farm, did 30 barrels. The Harriman-Kentucky Oil company's No. 6 on the Gibson Roberts farm, did 15 barrels. The Alpha Oil company got a duster in No. 10 on the G. F. Sanders farm, and the Penn Lubricating company's No. 14 Miller Bros. farm, did 25 barrels.

In Wolfe county, Beckett, Isom & Co.'s No. 4 on the J. S. Cable farm, did 60 barrels, and their No. 2 on the Reuben Cundiff farm, did 60 barrels. The Sterling Oil company's test on the J. C. Chapin farm, did 30 barrels. The Tecumseh Oil company's No. 2 on the Combs farm, did 30 barrels, as did the Consolidated Oil company's No. 1 on the Adam Creech farm.

In Estill county, C. P. Chinnault has Co.'s No. 4 on the J. S. Cable farm, did 60 barrels, and their No. 2 on the Reuben Cundiff farm, did 60 barrels. The Sterling Oil company's test on the J. C. Chapin farm, did 30 barrels. The Tecumseh Oil company's No. 2 on the Combs farm, did 30 barrels, as did the Consolidated Oil company's No. 1 on the Adam Creech farm.

BLOOD POISON is the worst disease on earth, yet the easiest to cure WHEN YOU KNOW WHAT TO DO. Many people have pimples, spots on the skin, sores in the mouth, ulcers, falling hair, bone pains, catarrh, and don't know it is BLOOD POISON. Send to DR. BROWN, 925 Arch St., Philadelphia, Penn., for BROWN'S BLOOD CURE. \$2.00 a bottle; lasts one month. Sold in Lima only at Wm. M. Melville's Drug Store.

WATCH THE BLACK BOARD AT CATT & DE GRAY'S CIGAR SHOP, 34

DAKOTA BANK FAILS. Minot, N. D., Sept. 19—The Minot National bank, failed to open its doors for business today. A notice posted on the door reads: "Closed pending the action of the comptroller of the currency."

When on the Links the Chuklos chew Colgan's Tuffy Tots (The Gum that Bites in 25) It clears the throat. No a Chuklos.

PERFECTION. For grocer for Perfection manufactured by Halleck & Marya, O. Successors of Woodward, Horn Flour 90-41.

WORTHY LIEUT. Of the Bird Committee Will Receive Vacancy.

Board of Education Will Choose Engineer When Long Qualifies.

MORE POLITICAL PIE. Two Additional Rooms to Be Built on Reese Avenue.

While Two Rooms Are Also to Be Added to South Elizabeth.

On recommendation of the Qualifier-Downing-Campbell committee, Janitor Lany of the High school building will be promoted to succeed the late Engineer Richard Allen, while in training to succeed Mr. Lany is a Mr. Wetherill. Janitor Lany is not a licensed stationary engineer, but he has learned much about the job, and it pays better money. Mr. Lany is a well groomed hemanant of the Qualifier forces, and deserves the promotion. Mr. Frank S. Wallers a registered stationary engineer with a license made application for the position last night, but his communication was referred to the teachers and janitors' committee, until "Lieutenant" Lany is sufficiently efficient to handle the job for which he has been slated by the "Bird" committee.

Member Uhl was the only absentee from the adjourned meeting of the board of education last night. Communications were read from Andrews & Co., of Chicago, who want settlement for blackboards at High school building. Member Steinenbach moved the clerk write offering settlement for \$1,000—a shaving of \$10—which carried. Clerk was instructed to order books whenever needed by the dealers.

Chairman Churchill of the building committee recommended the building of two additional rooms at the Reese Avenue building. Mr. Creps moved two additional rooms be constructed at this building. After little discussion the motion carried, and the addition will be erected at once.

Mr. Herritt reported two more rooms needed on the South Elizabeth building, but matter was held over. Mr. Churchill reported three rooms rented in the Harper block at a rental of \$500 with heat.

Mr. Creps said he heartily favored the erection of a two-room addition to the South Elizabeth street building and his suggestion was contagious as there is \$10,000 in the building funds. A motion carried to give the building committee power to erect the two new additional rooms to the Elizabeth street structure, and bids on same be advertised at once.

The law and contract committee reported that a readjustment of insurance be awarded as follows:

Ed. Wallace \$ 7,500
J. O. Ohler 15,500
Kemmer & Co. 10,000

GOOD FLOUR in the Home is conducive to good results and happiness.

Some housekeepers seem to think good bread is all in the baking and some millers would have you believe that it is all in the flour. It is not in either; it is in both.

You may be able to make good bread of almost any flour, but you can make better bread of some than you can of others—just as a miller can make better flour of some wheat than he can of others.

If you would have the best bread you must use the best flour. Thousands of families are using Pride of Lima flour in preference to any other and pay more for it than other flour costs; would they, if the cheaper flour was just as good? They certainly would not any more than they would pay as much for a brown sugar, which sweetens all right, but not nearly as much as a cut loaf sugar which is 98 per cent pure saccharine. Pride of Lima flour is the cut loaf quality.

Pride of Lima does not make forty more pounds of bread than any other good flour, but it makes as many pounds of sweet, nutty, nutritious, bone and muscle building bread as any flour in the world. Unlike some Western flours it does not absorb much water, which goes off by evaporation and leaves no more bread, but it leaves a loaf that soaks dries and gets hard.

Pride of Lima does not do this; try it and see for yourself. It is equally good for bread, pies, cakes and pastry.

Fabrics.

Our fall and winter fabrics are all ready to delight you—to charm you. Never have we assembled a collection in every way so beautiful and so expressive of the latest depictions of Dame Fashion.

We want you to come to this store—to visit our silk and dress goods departments to view our showing of the best of these materials—to examine, and compare, and realize that this store, is always earnest in its efforts to serve its customers in the most helpful way, has fairly surpassed every previous effort.

We solve the problem "What shall my new dress be made from?"—for a sight of these fabrics will add to your desire for immediate possession.

And we make the buying easy—and pleasant—for prices have been marked exceedingly close to first cost—so near that we expect to sell more during the coming week than in any week before.

From a quality and style viewpoint—we have never offered more pronounced bargains—no matter how economical you need to be, you'll leave this store satisfied.

We advise an early visit—while every style is here.

BROTHER IS DEAD.
A Sad Message Received From C. H. Chappell.

Attorney Fred C. Becker received a message from ex-councilman C. Harry Chappell, now of Chicago, announcing the death of the latter's brother.

The Chicago Record-Herald publishes the following announcement of the death:

"Jay Dixon Chappell died yesterday at his residence, 3657 Michigan avenue, after a brief illness. He was born in Sedalia, Mo., thirty years ago, and came to Chicago in 1881. At the time of his death he was president of the Woods Motor Vehicle Company, Twenty-ninth and Michigan avenues. He was a member of the Washington Park, the Midlothian and Chicago Athletic clubs. He is survived by his widow, Mary Loomis Chappell. The funeral services will be held at the residence tomorrow afternoon at 2 o'clock. The burial will be private, in Roschill."

AID SOCIETY WILL MEET.

The Ladies Aid Society of Wayne Street Church of Christ will meet with Mrs. Chas. O. Hara, corner of West and Spring streets, Wednesday, Sept. 20. Election of officers. Every member is requested to be present. By order of President.

LIMA OPERATOR
Putting Down a Wildcat Well in Illinois.

F. S. Wilbur and others of this city have started to drill a test oil well near Willow Hill, Ill., in territory that is radically of the wildest stripe, being about twenty-five miles from the nearest developed territory. If the well develops a producer it will open up some new territory in which Mr. Wilbur and his associates have about ten thousand acres under lease and will mark an extension of the Casey field.

COME IN AND SEE THE MODERN COOKING WONDER, THE GREAT MAJESTIC MALLEABLE IRON RANGES. ALL THIS WEEK WE WILL ALSO HAVE ON EXHIBITION A FINE LINE OF ACORN HEATING STOVES.

PENNY & PENNY.

P. H. C. NOTICE.

There will be the regular meeting of the Protected Home Circle tonight. A full attendance is desired.

If you want your little ones strong, healthy and robust, give them Hollister's Rocky Mountain Tea. A tonic for the whole family. The children's friend. 35c. Tea or Tablets. H. F. Vorkamp.

AGAIN GOES UP SIN IS DISCUSSED

Seep Agencies Advance Prices of Crude.

Three Cents Added to Eastern and Two to Western Oils.

KANSAS?—"NO CHANGE"

Lima Product Is Now But Thirteen Cents Below a Dollar.

Oil Men Awake, Look About and Are Now Taking Up Leases.

Crude oil made its third successive advance within a week this morning, three cents being added to the eastern market and two cents the barrel to the local fields and those of Indiana and Kentucky.

That dollar oil seems in sight is the prediction of every well posted oil man. Six cents added to the barrel within the course of as many days, the first change having come last Tuesday makes the outlook most optimistic.

Kansas and the Twin Territories did not participate in the advance of today, and it is believed by many will play no part in the present era of advances.

The completion of the big trunk pipe line from the mid-continent fields to Wilmington, Indiana, is still held by one county in Illinois where right of way has been refused. In storage west of the Mississippi at the present time are nearly 1,000,000 barrels, with from 20,000 to 30,000 barrels being accumulated every day. However, the Standard, according to local men interested in the West, is now taking all the oil produced.

By the new quotations, Lima oil is now but 13c distant from the coveted dollar price, and leasers are already engaged in taking up some promising territory in this and contiguous counties. It is a surety that with no set-backs the drill will be started here in the next few weeks with some of the old-time activity.

The quotations under the advance today are as follows:

Texas	1.51
Pennsylvania	1.36
Pennsylvania (second sand)	1.36
Cornwall	1.03
New Castle	1.23
Cabell (W. Va.)	1.11
North Lima	.92
South Lima	.87
Indiana	.87
Somerset (Ky.)	.81
Ragland	.49
Kansas	.50
Canada	1.32

92-21 PENNY & PENNY.

THE INSPECTORS FOUND FAULTS.

Columbus, O., Sept. 18.—F. C. Ray, an inspector in the state bureau of accounting, has filed with the state auditor a report of his examinations of the villages of Erie county. It includes Huron, Milan, Berlin Heights, Kelly's Island and Vermillion. Nothing out of the ordinary was found in any but Huron and Milan, but in them all there was found general disregard for provisions of the new municipal code.

In Huron the accounts were all found in a bad tangle and many overdrafts are reported at Milan.

For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

GAVE NOTICE OF FILING A MOTION.

Columbus, O., Sept. 18.—Attorneys for the defendants in the \$100,000 damage suit of Dr. Jas. T. MacBride against Orrin B. Gould, warden of the Ohio penitentiary and others, prominent in political life in Southern Ohio, C. C. Pavey, one of the attorneys for the plaintiff called Barry Smith to the stand and asked him to identify a letter written by the court clerk of Scioto county to inform him the Gould MacBride case was assigned to be heard especially by Judge Middleton.

Attorney Smith failed to identify this letter. Immediately after the introduction of the evidence the judge rested the case, and Attorney Henry Booth for the defendant giving a notice of a motion in non suit.

One night is all the time necessary to prove that Pneumonia is the best remedy in the world for backache and all kidney and bladder troubles. If you have rheumatism or any other blood disease a single dose will give relief.—Sold by H. F. Vorkamp.

RURAL LETTER CARRIERS MEET.

Indianapolis, Ind., Sept. 18.—The National Rural Letter Carriers Association went into convention at the state house this afternoon and will continue a session until Friday afternoon and perhaps longer, if the program is not completed. The program for the afternoon, included an address of welcome by Mayor Holtzman, a response by H. H. Windsor, of Chicago and an address by Edward Brewer, editor of the Omaha Nebraska Bee. As an instance that there is the best feeling between the people and the association General Superintendent Sprill, of Washington, has promised to address the convention on Thursday.

THE TROUBLES

Of Boss Quail Are Only Commencing.

Harry Albrecht Wants to Be Candidate for City Treasurer

AND THE PARTY BOSS Must Find Another Forakerite For Board of Public Service.

H. C. Napier to of Be One Abbott's Running Mates Says the Boss.

Boss Quail is having his own troubles in his efforts to fill up a slate of candidates for city offices from among republicans who have aided him in the fulfillment of his selfish schemes and at the same time are men who are willing to go upon record as being boss chosen and boss controlled candidates for the suffrage of honest people. The Quail-Gale-Quail have rheumatism or any other blood disease a single dose will give relief.—Sold by H. F. Vorkamp.

Quail made a mistake in trying to reward Harry Albrecht by giving him a nomination as one of the candidates for board of public service. Harry is a business man and he figures that political rewards should be "veiled." He is determined to be rewarded; Quail owes him that and has promised to pay; but Harry will not have a job that will not be all "veiled." If he goes on the board of public service he will be compelled to neglect his clothing business, so he decided to take something that will net him a good salary and still take no time from his other business. He will be Quail's candidate for city treasurer. He's done more for Quail than Dr. Melville ever did and Dr. Melville cannot be nominated for a second term if Quail and Harry says "No." They have decided to say "No."

N. C. Napier is another member of the Quail-Foraker crowd who is to be rewarded for past services in the Quail schemes. He is already a member of the city council but that doesn't pay enough and now he and Sard Abbott are one of the faithful ones who are to be nominated.

It appears that Downing for city solicitor and Landick for mayor, are to have no opposition, for, as Harry Bentley, who wanted a second term as city solicitor, says, "What's the use?" "Quail's men are 'dealing from the bottom' and what's the use of going against another man's sure-thing game?"

William McComb and L. H. Rogers wanted to be candidates for mayor. In the event the members of the party at large were to have a voice in the election of candidates on the city ticket, but for fear one of these men would be nominated, Quail ordered the committee to hold a city convention and select the right kind of delegates and now they, like Bentley, and that Quail is bigger than his party and they have no chance of determining whether the people want Landick as the candidate for mayor or not.

Quail says "I (notice the pronoun) can nominate the ticket I want if we have a convention," and he's going to have whom he wants.
